REPORT OF SUPERINTENDENT OF SCHOOLS

To the Troy School Board:

I submit herewith my fifteenth annual report as Superintendent of Schools, this being the thirty-third in the series under union supervision.

The enrollment for the fall term 1932 was 247, the same as for the fall term a year ago, while the total enrollment for the last school year was 253. The high school enrollment was 45 at the opening of the school year and the average membership for the first twelve weeks was 42. This is five more than the enrollment for the last school year.

There were no changes in the teaching force for the present year. Every teacher accepted the cut made necessary by the financial condition of the school district, and has cheerfully carried on the work assigned.

After carefully considering the situation it was decided to move the high school grades into the brick building, so that now all the rooms in that building are occupied with grades from three to ten. Grades one and two are located in the old high school building on the hill. With this arrangement the upper room in that building is not in use.

This new arrangement allows the high and junior high grades to have rooms on the upper floor of the brick building and places the headmaster of the high school in charge of the entire building.

The plan is working out well. Grade seven now has the opportunity to become a part of the junior high school which was impossible under the other system.

Mrs. Whitecomb has been retained as supervisor of music. Her work is carefully outlined and her instructions are faithfully carried out by the teachers in all the grades.

Miss Harris has continued her work as school nurse in a very efficient manner. The examination of the pupils by the school physician takes place early in the school year. Miss Harris assists in this examination, and continues during the year with effective follow-up work. This work does much to prevent the spread of any contagious disease, and also helps to build up the under-nourished pupils.

The distribution of milk and crackers, some of which has been donated, and the rest sold at a nominal charge, has been of great benefit in keeping up the health of the pupils.

For the second consecutive year the Troy schools are carrying out the plan of having the schools in session a full school year of 180 school days. The result of this arrangement is that the schools run for thirty-seven weeks for less money than was formerly required to operate them thirty-six weeks.

In preparing the school budget for the next school year the school board, taking into consideration the financial situation which exists at the present time, has prepared a schedule which shows a proposed decreased expenditure of more than twelve percent from the reduced budget of last year. We believe that an appropriation based on these figures will allow the schools to carry on another year without any material loss of state aid.

In closing, I desire to thank the school board, teachers, pupils, and all interested parents and citizens for their support and cooperation.

Very truly yours,

LEWIS S. RECORD,

Superintendent of Schools.

East Jaffrey, N. H., February 3. 1933.
